

WAGGGS World Issues

Girl Guiding and Girl Scouting are involved in many diverse projects that focus on different needs and ways we can help in our local and global communities.

Please visit the WAGGGS web site for more information on these and other issues.

UnAids

The joint United Nations Programme on HIV/AIDS (UnAids) believes that children and young people are critical in changing the course of the epidemic.

A badge has been offered and the specific information for this badge as well as the badge will be available in the Manitoba Provincial Office. Your Area International Adviser also has some sources of information and resources available in the province to assist you in this project.

Prevention of Adolescent Pregnancy

This campaign encourages Member Organizations to be involved in the UN prevention of Adolescent Pregnancy Initiative.

We would encourage local units to join in the campaign and learn about this international issue as well as involving young members in advocacy and leadership in their communities.

Spirituality Package

A wonderful multicultural resource has been developed by WAGGGS. It has a variety of interesting topics with lots of information as well as hands on sheets for activities. We have several copies available at the Province. It is developed as a tool for adults and for use with older girls.

Please call the Provincial Office to arrange to borrow a copy.
