- to dig small animal traps
- to flip your pancakes
- to dig out your car if it gets stuck
- to dig your cathole with

2. The best place to wash your dishes is

- in the river for easy rinsing
- at the tap provided by the campground
- in a basin at your campsite
- in the washroom so that others can see how pretty they are

3. When should you trench around your tent?

- when you want to transplant wild flowers
- never
- there is a chance of rain
- when you want to drown those scary worms

4. It is a good idea to break branches off a tree when

- they obstruct your view
- you need a stick to cook hot-dogs
- never
- you need a weapon to scare away an animal

5. When you leave a camp site you should

- leave a note for the next group
- forget your clothesline
- make sure it is cleaner than when you arrived
- build a new fire ring

6. When you encounter an animal at camp you should

- make it a snack
- chase it
- keep your distance and enjoy the opportunity to observe it
- try to catch it so you can pet it

7. The best thing to do with your trash is

- hide it behind a rock
- make a huge fire and burn it
- dig a pit and bury it
- wash, crush and pack it out

8. You should cut across a hiking trail when

- you are tired of being at the back of the line
- never
- someone else did it before you
- your pack is very heavy

9. The best place to build your campfire is

- right next to the trail in case of an emergency
- near an old dead tree so the wood is easy to reach
- in a patch of green grass
- in the designated pit or fire ring

10. You should use a stove for cooking when

- the wood is very wet
- whenever possible
- you have more pots than will fit on the grate
- when you are too tired to gather fire wood
